

LPS PROPERTY INVENTORIES – Products and Prices

Our Inventory products are all available nationwide and can be purchased over the phone. Simply call the Letting Protection Service on **0800 612 2081** to arrange your appointment.

The Inventory:

We make a comprehensive inventory of the contents, fixtures, and fittings of your property. The document is agreed by both landlord and tenant and includes a full description of the condition of walls and ceilings, floors and carpets, paintwork, light fittings, woodwork, windows, radiators, etc.

The Check-In:

At the start of a tenancy we produce a schedule of overall condition and cleanliness. We list and hand over the keys to the tenant, take any meter readings, and ask the tenant to sign the inventory.

The Check-Out:

At the end of a tenancy we compare the state of the property to the original inventory. We list all changes, make recommendations, and, where practical, advise on compensation.

Interim Inspection:

Interim inspections help ensure that landlords and agents are made aware of any potential problems as soon as possible.
